

Women's Sexual Addiction Screening Test

By [Patrick Carnes, Ph.D.](#) and [Sharon O'Hara, MA](#)

The Women's Sexual Addiction Screening Test (W-SAST) is designed to assist the assessment of sexually compulsive or "addictive" behavior. The W-SAST provides a profile of responses, which help to identify women with sexually addictive disorders. Circle each "Yes" response as appropriate. Answering yes to more than 3 questions may indicate a sexual addiction problem, which should be openly discussed with a trained sexual addiction specialist.
